## PROFESSIONAL CATALOGUE

WET & DRY VACUUM CLEANER  
Outstanding effect, easy implementation

## ABOUT US

Yongkang Jienuo Industrial & Trade Co., Ltd was established in 1994, located in Yongkang of Zhejiang, the hardware science and technical center of China. With the total production area of 15000 square meters and advanced and modern equipment, we employ more than 150 peoples including senior professional technicians and a team of capable managers.

We are a professional company on doing home appliance, majored in develop, design, produce and sell wet & dry vacuum cleaners, and we are becoming one of the largest manufactures of cleaning equipment in China. Jienuo had been approved the ISO9001. Many products with independent intellectual rights obtained global patents and certifications involving cETL, CE, GS, EMC, CCC.

As one of the leading company in this field, Jienuo always pushing the development in terms of products, quality and service; always insist on the theme of "Excellent quality, Honesty to develop. Strive for excellence , trying to be perfect .

Now Jienuo vacuum cleaners are selling all of the world with high reputation and feedback from customers such as European area: Germany, Italy, Poland, UK, France, Portugal, Sweden, Russia, etc; Asia area: Japan, Vietnam, Malaysia , mid-east, etc.; North America Area; Africa area; etc.

Jienuo Vacuum Cleaner -- Looking forward to your presence and cooperation.

AIR TOOLS- OPTIONAL

INNOVATION DESIGN

## PRODUCT OVERVIEW //

This product with outstanding appearance looks glorious. As a professional vacuum cleaner, this product has a wider range of application. Except the general application of vacuum cleaner, this product has a specific design for ultrafine dust to keep the suction persistent and clean the dust thoroughly.

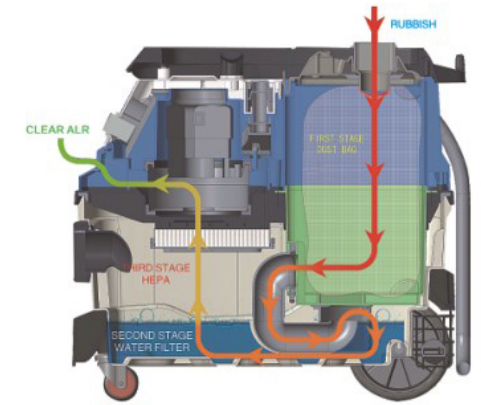

### Main Design:

1. The whole water filtration circulation system;
2. The reverse wind blow system - Clean dust and ultrafine dust in the filter to keep high vacuum;
3. Motor assembly - Wet and Dry Motor, high power, strong performance;
4. Wind blow system;
5. Tank sub-assembly.

### Other functions:

- With socket (synchro function);
- Specific plate filter, big filtration area;
- Clean dust bag, re-use it;
- Add pressure release valve to prevent motor burn as blocking;
- Liquid level monitoring function, self-stop with high liquid level;
- Speed control switch can be added;
- The rounding and hidden air intake and outlet design, low noise;
- The rotated pushing handle set;
- Side storage design, convenient;
- Front and rear separated wheel, stable and durable;
